27 December 1965

UNITED STATES INTELLIGENCE BOARD

MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT: Seventh Annual Report of the Committee on Documentation (CODIB)

1. The enclosed Seventh Annual Report of the Committee on Documentation (CODIB) and its attached Appendices are forwarded herewith for information of Intelligence Board members.
2. It is not now planned to schedule this report on the USIB agenda for discussion unless specifically requested by a Board member to do so prior to close of business 6 January 1966. In the absence of such a request, it will be considered for record purposes that USIB "noted" the subject report on that date.

Final: CODIB Approved

UNITED STATES INTELLIGENCE BOARD  
COMMITTEE ON DOCUMENTATION

Seventh Annual Report

Authorization

The USIB Committee on Documentation (CODIB) operates under DCID 1/4 (New Series) dated 23 April 1965.

Scope

This report covers CODIB activities during Fiscal Year 1965, with an attached checklist (Appendix A) of documents issued; membership during the reporting period is reflected in Appendix B. New developments in information processing in individual member agencies are reflected in Appendix C.

Activities

The main concern during the reporting period was the progress of nine task teams, established after USIB review of the report of the Staff for the Community Information Processing Study (SCIPS); team activities have been reported to USIB quarterly (the latest report distributed as USIB-D-39.7/12, 18 November 1965). The teams held 114 meetings and expended about 20,000 professional man-hours -

- 2 -

or about 10 1/2 man years, including the four professionals on full-time assignment on the CODIB Support Staff. A total of 245 substantive team papers and about 100 additional working papers were generated. Formal CODIB review of the task teams' progress and consideration of other matters of interest resulted in eight meetings and the issuance of 41 staff papers, of which 35 dealt with the team activities.

The Committee's other extant bodies include the Subcommittee on Classification (SCC), a Working Group on Emergency Planning (WGEP) and a Working Group on Remote Systems Input (WGRSI). The SCC did not meet as a body, but individual members met to work up a revision to the Intelligence Subject Code and to discuss a proposal that the DoD area code be adopted as a Community standard (see page 6 below). The WGEP began a revision of its basic document on dispersal of finished intelligence collections. The WGRSI held three formal meetings to review the status of the development of the secure, machine-language by-product typewriter; indicators of difficulty noted during the year multiplied until, after the close of this reporting period, some fairly severe problems had developed. Appropriate corrective steps or alternatives are now being studied.
